YASH BHOSALE

Data Science Engineer | Full-Stack Developer

Thane, Maharashtra 400606 | +91 9137553025 | yashbhosale8105@gmail.com | LinkedIn: yash-bhosale-23b9a8274 | GitHub: github.com/yashbhosale8105

PROFESSIONAL SUMMARY

Motivated third-year B.E. student in Computer Science (Data Science) with a strong foundation in Python, SQL, machine learning, and full-stack development. Demonstrated ability to build end-to-end data-driven applications and deliver analytical insights through independent projects and virtual internships with top firms including TATA, Deloitte, and Accenture. Eager to apply academic and project expertise to real-world data analytics and software engineering roles.

TECHNICAL SKILLS

Data Analytics & ML: Python (NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn), SQL, EDA, Statistics & Probability, ML Algorithms (Regression, KNN, Decision Trees, Random Forest, Clustering)

Dashboards & BI: Microsoft Excel (Pivot Tables, Dashboards), Power BI (basic), Looker (exposure)

Programming: Python, JavaScript (ES6), C, C++

Frontend: React.js, React Hooks, HTML, CSS

Backend & Databases: Node.js, Express.js, RESTful APIs, MySQL

Tools & Platforms: Git, GitHub, Jupyter Notebook, Anaconda, Google Colab

Soft Skills: Communication, Stakeholder Collaboration, Documentation, Problem-Solving, Teamwork, Mentoring

EXPERIENCE & INTERNSHIPS

GenAI Powered Data Analytics Job Simulation | TATA | 2024–2025

- Completed end-to-end simulation involving data cleaning, analysis, and AI-assisted reporting.
- Built analytical insights using Python and presented findings to simulated stakeholders.

Data Analytics Job Simulation | Deloitte | 2024–2025

- Worked through a real-world analytics scenario involving data interpretation, visualization, and business recommendations.
- Strengthened ability to communicate complex analytical findings to non-technical audiences.

Software Engineering Job Simulation | Accenture | 2024–2025

- Completed a structured software engineering workflow simulation: requirements analysis, code design, and documentation.
- Practiced agile-style delivery of engineering tasks under defined timelines.

Python Full Stack Developer Virtual Internship | Eduskills | 2024

- Built full-stack web applications using Python, Node.js, and React.js.
- Developed RESTful APIs and MySQL-backed databases to support frontend interfaces.

Data Science Master & Data Engineering Virtual Internship | Eduskills | 2024

- Completed comprehensive data science curriculum covering EDA, ML modelling, and data pipelines.
- Applied scikit-learn, Pandas, and NumPy to build and evaluate ML models on real datasets.

KEY PROJECTS

SolarTerrain — *Python, Machine Learning, Geospatial Data*

- ML-based solar mapping system to identify optimal solar installation sites using terrain and climate data. Involved full data pipeline from collection to model evaluation.

Lookify – AI Fashion Recommendation System — *Python, ML, React.js*

- Built an AI-powered fashion recommendation engine using collaborative filtering and content-based ML algorithms, served through a React.js frontend.

Transplant Care – Organ Donation Forum — *Node.js, Express.js, MySQL, React.js*

- Full-stack web application connecting organ donors and recipients with real-time data management, RESTful APIs, and a responsive React interface.

Quizventure – Ultimate Technical Quiz — *JavaScript, React.js, Node.js*

- Interactive technical quiz platform with dynamic question scoring, leaderboards, and a clean component-driven React UI.

EDUCATION

Bachelor of Engineering – Computer Science (Data Science) | Expected July 2027
A.P. Shah Institute of Technology, Anand Nagar | Semester 3 CGPA: 10.0

HSC (Science) – S.K. Somaiya College | Score: 80%
SSC (CBSE) – Sri Ma Vidyalaya | Score: 91%

CERTIFICATIONS

- GenAI Powered Data Analytics Job Simulation – TATA
- Data Scientist: Statistics for Data Science – Simplilearn
- Python Full Stack Developer Virtual Internship – Eduskills
- Data Science Master Virtual Internship & Data Engineering Virtual Internship – Eduskills
- Software Engineering Job Simulation – Accenture | Data Analytics Job Simulation – Deloitte
- Python Essentials – Cisco | DBMS Course – Scaler
